

The Eyeglasses: Experiencing the Student View

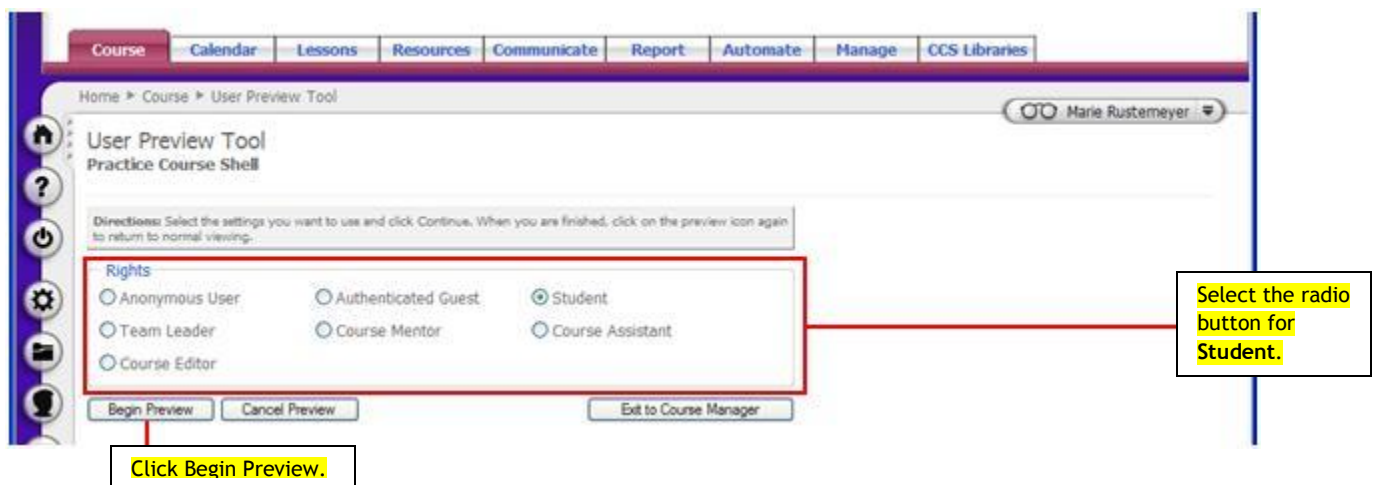

ANGEL has a feature that allows you, the instructor, to view your course from a student perspective. Previewing your course material as it will appear to students is an important aspect of quality course design. To experience the student view, use the eyeglasses.

USER PREVIEW

1. In your ANGEL course, click on the eyeglasses icon next to your name in the upper right corner of your course page.

2. This opens the User Preview Tool.

3. Select the radio button for **Student** to view your course as a student would and then click **Begin Preview**. When you are finished previewing your course, click the eyeglasses icon again and select **Cancel Preview** to return to your instructor (Course Editor) screen.
