SCC Players fourth annual One Act Performance. This popular and fun production always brings a full house. Scenes of Life is a collection of original scripts that are then individually student directed, cast and produced, and woven together into a night of fun and celebration of the true meaning of theatre. This year, the theme will be “Moments in Motion”

Scenes of Life: Living in the Moment
(Winter 2012)

Before I Robot, before The Matrix and even before Terminator there was a real threat with Rossum’s Universal Robots. Rossum has found a way of creating living robots who can be used for any manual labor needed within society. The factory is thriving. But, once Helena, the daughter of the World President arrives and begins to discuss the treatment of the robots, everything begins to fall apart. The robots rebel and the results will define the future of humanity.

HUM 101 (Intro. to Film)

HUM 201 (Creative Process Studies/Humanities: Past Present and Future)

The SCC Players are a combination of performances, courses, and activities presented for Spokane Community College as part of the Community Colleges of Spokane and for the community of Spokane. The goal of the club is to build a greater understanding of the human condition through film and theatre with events, performances, activities, and festivals while directly incorporating SCC students as the actors, crew members, filmmakers, and all other needed positions to create the activities. The club helps enrich the students’ experiences through theatre and film arts as an avenue of expression, interpretation, and overall personal enrichment. While the primary goal is to create compelling and enjoyable theatrical and film productions, the club also participates in activities for communities of various ages and organizations.
